Date: 8/30/2019

**Reporting Period:** 8/24/2019 - 8/30/2019

### 1. Introduction

### 1.1 Background

Site Number: C5PZ Contract Number: EP-S4-16-02

D.O. Number: Action Memo Date:

 Response Authority:
 CERCLA
 Response Type:
 Emergency

 Response Lead:
 EPA
 Incident Category:
 Removal Action

NPL Status: Non NPL Operable Unit:

Mobilization Date: 8/7/2019 Start Date: 8/7/2019

Demob Date: Completion Date:

CERCLIS ID: RCRIS ID:

ERNS No.: State Notification: H20190805

FPN#: Reimbursable Account #:

### 1.1.1 Incident Category

Emergency response

### 1.1.2 Site Description

See PolRep #1

### 1.1.2.1 Location

The site is located at 20604 Amherst Court, New Lenox Township, Will County, Illinois 60433.

### 1.1.2.2 Description of Threat

See PolRep #1

### 1.1.3 Preliminary Removal Assessment/Removal Site Inspection Results

See PolRep #1

### 2. Current Activities

### 2.1 Operations Section

### 2.1.1 Narrative

Collection points were maintained to intercept contaminated run-off from reaching storm drains. Solid, liquid and semi-solid chemical products that were generating unsafe levels of formaldehyde were removed from a former process room in the remaining structure for disposal.

### 2.1.2 Response Actions to Date

- Collection points consisting of a pump and adjacent tank were maintained around the site to intercept storm water run-off;
- Waste chemicals were removed from the floor of a process room containing elevated levels of formaldehyde vapors;
- A fiber drum found to be leaking in the chemical storage area of the remaining building was removed and it's contents were containerized for disposal;
- Diversion piping was installed on downspouts to divert storm water away from the front of the building;
- Liquid and solid wastes generated from stabilization activities to date were removed for proper disposal;
- Chemical products and equipment not impacted by the fire will be removed by the facility owner under

USEPA oversight; and

- Air sampling was conducted in and around the remaining structure for formaldehyde for worker and public safety: and
- Off-hour site security was maintained to prevent access to the facility.

### 2.1.3 Enforcement Activities, Identity of Potentially Responsible Parties (PRPs)

See PolRep #1

### 2.1.4 Progress Metrics

Waste Stream	Medium	Quantity	Manifest #	Treatment	Disposal	
Oil impacted waste	solid	40 yds	TBD	disposal	TBD	
Oil impacted soils	solid	60 yds	TBD	disposal	WMX Laraway Landfill, Joliet, IL	
Oily liquids	liquid		TBD	treatment	Covanta Environmental Services, Portage, IN	

### 2.2 Planning Section

### 2.2.1 Anticipated Activities

- Collection points (pumps, tanks and diversion berms) will continue to be maintained to prevent contaminated water from running off site as rainfall events create storm water run-off; and
- Off hour site security will be maintained to prevent access to the facility
- MPG industries will continue to remove product and equipment from the site

### 2.2.1.1 Planned Response Activities

See Section 2.2.1

### 2.2.1.2 Next Steps

See Section 2.2.1

#### 2.2.2 Issues

Discussion continue with the site owner over next steps for the cleanup.

### 2.3 Logistics Section

ERRS contractor Environmental Restoration, LLC is providing logistical support on site.

### 2.4 Finance Section

### 2.4.1 Narrative

ERRS is supporting site stabilization activities by Environmental Restoration, LLC. START contractor TetraTech, Inc. is supporting sampling, monitoring and site characterization activities.

### **Estimated Costs \***

	Budgeted	Total To Date	Remaining	% Remaining					
Extramural Costs									
ERRS - Cleanup Contractor	\$150,000.00	\$102,000.00	\$48,000.00	32.00%					
TAT/START	\$40,000.00	\$28,000.00	\$12,000.00	30.00%					
Intramural Costs									
USEPA - Direct	\$10,000.00	\$6,000.00	\$4,000.00	40.00%					
USEPA - InDirect	\$0.00	\$2,000.00	(\$2,000.00)	0.00%					
Total Site Costs	\$200,000.00	\$138,000.00	\$62,000.00	31.00%					

<sup>\*</sup> The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.

### 2.5 Other Command Staff

### 2.5.1 Safety Officer

OSC Jacob Hassan and RM Tobey Viehweg are serving as safety officers.

### 2.5.2 Liaison Officer

OSCs Jacob Hassan and Paul Ruesch are serving as liaison officer with local, state and federal authorities.

### 2.5.3 Information Officer

CIC Adrian Palomeque is serving as information officer.

### 3.1 Unified Command

A multi-agency coordination council (MACC) consisting of the following entities continue to coordinate on the response:

US EPA Region 5 Illinois EPA Will County EMA/Health Department New Lenox Fire Protection District

The MACC met on August 20 to discuss the status of the Site and next steps.

### 3.2 Cooperating Agencies

US DOT PHMSA

Illinois Office of the State Fire Marshall Illinois Environmental Protection Agency Illinois Department of Transportation

Illinois Attorney General's Office

Will County Emergency Management Agency
Will County Health Department Will County State Attorney's Office New Lenox Fire Protection District New Lenox Public Works Department

### 4. Personnel On Site

EPA: 1 ERRS: 6 START: 1 Security: 1

Total: 9
